BAROMETER TUBES		Price per unit in £ on 19/02/2018	
	UNFILLED WHEEL BAROMETER TUBE Complete with guidetube, float and counterweight. Other sizes of tube can be made to order; please enquire. Please note: This item exceeds the maximum acceptable length for overseas postage and is therefore more expensive to send. This will be reflected in the international postage fee. Pyrex wheel tubes complete with float, counter-balance and guide tube. Pyrex is used to avoid the mercury staining that occurs on soda glass. The tubes are very high quality, and the float is an accurate fit. This reduces the evaporation of toxic mercury vapour to minimal levels, and also ensures that small changes in pressure register. 3mm capillary. 33 1/2" overall length. Mercury capacity 160g. Top chamber 80mm long. 13mm o/d. U section 140mm high with a tight bend to keep overall width to a minimum. Supplied unfilled.	0780 000115	1+ £41.15 2+ 02788.002
	FLOAT, COUNTERWEIGHT AND GUIDE TUBE SET Glass tube with hooked float and counterweight. Designed to fit our tube but normally universal. Tube 150mm long. 10mm o/d. 8mm i/d. Float & weight 7mm o/d. Float 75mm long. Counterweight 45mm. Suitable for most wheel barometers.	0780 000215	1+ £9.95
WHEEL TUBE PLUG		Price per unit in £ on 19/02/2018	
	WHEEL TUBE PLUG Insert this plug into the capillary when the tube has been filled with mercury. It will protect the tube by stopping the vacuum until you are ready to fit the float etc. Mercury will still pass the plug if you wave it about or allow the mercury to expand through heat.	0910 000115	1+ £3.95

MERCURY

Price per unit in £ on 19/02/2018

	MERCURY 175g Due to restrictions, the sale of mercury will be conditional upon the completion of our <i>Sale of Mercury</i> form. The form is available for reference and completion in our technical help pages Here Distilled Mercury to BS 4227, packed in 175g plastic bottles. Mercury is toxic, and the vapour is particularly dangerous. If you are uncertain about its use, we suggest you find someone to handle it for you. Be sure to have sulphur and calcium hydroxide available in case of spillage. Please do not wait for a spillage and then order the powders in panic! The Royal Mail will not accept a package containing mercury. We have to use a specialist carrier to deliver this to your door. We cannot send mercury outside UK, as it is a prohibited substance under Civil Aviation Authority rules.	0797 017515	1+	£42.34

BAROGRAPH CHARTS

Sold in packs of 50 charts.

Printed on special paper to reduce ink spreading. Charts are normally retained by a clip or the ends are gummed. Universal charts can be used by either method, and where the ends are gummed, simply place one end over the the other and apply a touch of glue. Apply the minimum possible, to make the chart easy to remove at the end of the week. Charts start on Sundays or Mondays. Sunday start is normally useful in domestic situations. Changing the charts on Mondays is often more convenient in commercial applications. Inch or millibar calibration is a matter of personal choice.
