

8. Decorative Glass & Backboard Labels

Glass painted tablets & Decals. Backboard labels.

GLASS TABLETS FOR AMERICAN CLOCKS

These are made by us in a similar way to those made in America in the 19th Century, and are coloured by hand using carefully matched colours. All patterns are taken from the originals, and all original imperfections are retained for authenticity.

If you wish to make use of our glass cutting service, please be sure to supply exact measurements of the glass required. Shapes other than squares, rectangles and circles should be accompanied by a template. Panels requiring cutting cannot normally be despatched immediately, and may be subject to 7-10 days delay.

We have a fixed cutting charge: **0569 000115 £10.00**

STATE STREET, BOSTON, PATTERN W1

Multi-coloured scene with line drawings in black.

Price per unit in £ on 04/12/2017

	STATE ST. BOSTON, PATTERN W1: 8" x 10"	0158 100015	1+	£28.70
	STATE ST. BOSTON, PATTERN W1: 8 3/4" x 11"	0158 110015	1+	£30.15

THE GREAT EXHIBITION, PATTERN W2

Multi-coloured scene with line drawing in black. The text at the foot of the tablet was reversed by mistake on the original and it has been copied exactly.

8. Decorative Glass & Backboard Labels

ORANGES, PATTERN W6

ORANGES TABLET W6 Multi-coloured scene with line drawing in gold. As this panel has no border, it is particularly suitable for cutting to unusual shapes. A border can look out of proportion to the door when cut down in one dimension more than the other. The line drawing is 4 1/4" x 6 1/2" at the widest points.

Price per unit in £ on 04/12/2017

1	ORANGES TABLET W6: 8" x 10" BLACK	0163 100002	1+	£34.38
2	ORANGES TABLET W6: 8" x 10" GREEN	0163 100005	1+	£34.38

WATERSLIDE TRANSFERS FOR GINGERBREAD CLOCKS

Waterslide transfers AA to WW are about 6" wide and suit 5 1/2" dial pans. They are intended for 'Gingerbread' clocks. Supplied with full instructions. To apply, soak in luke-warm water for a few seconds. The transfer loosens from the backing paper and slides onto the glass. Remove any air bubbles and allow to dry.

- ✓ **Quick and easy to use**
- ✓ **Kind to brass**

3-Stage cleaning system

125ml Kit contains enough to clean several clocks.

Degreasing concentrate

Lacquer remover

Surface cleaning concentrate

Plastic gloves

Full instructions

Using only non-toxic, non-flammable and non-ammoniated liquids, M&P's HorogreneTM Clock Cleaning Kit can be used safely in the home-workshop, in classrooms and public places etc. without creating unpleasant smells, fire hazards or toxic vapours.

For decades strong mixtures of solutions containing ammonia, flammable solvents and toxic chemicals have been used to clean clocks. Whilst effective, their toxic nature and pungent smells have become less appropriate in the home and workplace. Transporting hazardous fluids has become problematic, and inappropriate disposal of chemicals can affect the environment.

Please bear in mind that the purpose of the products in M&P's HorogreneTM is to strip off dirt, varnish and tarnish, and although they are not harmful, they will also remove natural oils from your skin. Avoid contact with skin whenever possible and wash your hands with soapy water at every opportunity. Consider the use of moisturising creams after use.

Use common sense. Keep out of reach of children and pets, and avoid contact with the eyes by splashing. None of the products is harmful to the environment and can all be disposed of down the drain in kit quantities.

How M&P's HorogreneTM works

A typical clock in need of restoration normally suffers from three distinct problems:

- The mechanism will have congealed oil mixed with dust and dirt over much of the surface
- Some parts may have been lacquered
- Parts not still lacquered may be tarnished

M&P's HorogreneTM is a 3-stage process, with each stage designed to resolve one of these problems. It is important to follow the instructions carefully and to carry out the stages in the correct order.

The amount of product to add to water is only a guide. For badly soiled parts, make the solution stronger, but not normally more than 15% concentrate. Excessively strong mixtures will not normally improve results.

Price correct at time of printing (March 2014) but subject to change without notice.

Meadows & Passmore Ltd. 1, Ellen Street, Portslade, Brighton BN41 1EU +44 (0)1273 421321 sales@m-p.co.uk
